General Correspondence

SUBJECT: Olbrich Park Landfill, Monitoring Number 3918

Dear Mr. Nelson:

The Department has received and reviewed your letter dated February 18, 2005 requesting that no further investigation and remediation be done at the closed City of Madison Olbrich Park Landfill. Based on the determination of the condition of the waste, and the gas and ground water monitoring results provided by the City, the Department agrees that the waste present at this site is not causing significant environmental harm.

To maintain the site, please do a biennial visual check of the site and make repairs as necessary to ensure that erosion does not expose any waste and that surface water is not ponding on the site.

Sincerely,

Mark Harder, P.E.
Waste Management Program Engineer
South Central Region
